

Co-Designing Transition Experiments

Brainstorm ideas for a place-based experiment exploring transition possibilities

Place

Describe the location you are focusing on. What challenge or issue do you observe here that calls for a transition?

Long-Term Goals

What long-term transformation do you hope this place-based experiment will contribute to?

Existing Plans

What policies, strategies or plans from local authorities or other organisations are relevant to this place?

Needs of Users

What needs, values or concerns do local users and stakeholders have regarding this place?

Experiment

Write down your first idea for a place-based experiment. How could this idea explore or address the challenge identified?
